***Allowable Subject Matter***

6. Claims 1-9, 25-27, 29-31, are allowed.
7. The following is an examiner's statement of reasons for allowance:

Art Unit: 2154

Applicant's invention discloses a method, a system and a computer readable medium implements a manager to manage inputs from both non-legacy non-serial input device driver and legacy serial input device driver.

This novel invention utilizes the non-serial input device driver to support a non-legacy non-serial input device, and the serial input device driver to support a legacy serial input device. The manager receives input from both the device drivers and forwards the input to an application program. The manager communicates directly to the serial input device driver and without directly communicating with the non-serial input device driver. The manager allows additional of new serial legacy input devices and non-serial non-legacy input devices using their respective devices drivers, in which, the manager skips registering the new serial input devices.

The prior arts do not teach a manager that supports both non-legacy and legacy devices as disclosed above. Therefore, the claims are allowable over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
